Tuition Award Regulations

1 General – Both In- and Out-of-State
1.1 There have been no changes since last year in any aspect of the tuition awards for graduate students. However, please make note of the following important matters that continue to apply to graduate students and assistantships.

1.2 Students with conditional admission to a graduate degree program continue to be eligible to hold any type of graduate assistantship. Thus, departments may award a teaching, research, or administrative assistantship to a student with regular or conditional admission without seeking special permission from the Graduate Dean.

1.3 A conditionally admitted student whose graduate GPA falls below 3.0 at any time during his or her conditional status will not be allowed to hold a teaching assistantship; however, he or she may hold a research assistantship.

1.4 Conditionally and unconditionally (regularly) admitted students will not be placed on academic warning (formerly called probation) until after at least 12 semester hours have been completed with an overall graduate GPA of less than 3.0. (Under the previous policy, unconditionally admitted students could go on academic warning as early as after completing the first 6 hours.)

1.5 The Council has determined that the following may not hold graduate assistantships:
   (a) Students in non degree status;
   (b) Students on academic warning. Only graduate students are allowed to hold graduate assistantships. Students, who have not yet earned a baccalaureate, even if they are participating in programs such as the University Scholars Program, are not allowed to hold graduate assistantships.

1.6 Students who have provisional language admission are eligible to hold externally funded research assistantships, but may not take graduate classes and may not hold any type of teaching assistantship or internally funded research assistantship until the language provision has been removed.

1.7 General Tuition Award. The award of an assistantship of 0.50 FTE or greater that is funded by Academic Affairs as a permanently budgeted Graduate Teaching, Research, or Administrative Assistantship entitles the student to an award equal to the cost of in- and out-of-state tuition for the semester appointed. In order to qualify, each student must be (1) admitted as a degree candidate, (2) enrolled in Graduate or Law School, and (3) have a signed memorandum of appointment on file.

1.8 In order to receive a full tuition award for the semester, the appointment must be made before the last day of the drop period.

1.9 If the assistantship is less than 0.50 FTE, the award is reduced proportionately. For example, a student with 0.25 FTE is entitled to an award equal to half of the student’s total tuition cost.

1.10 The maximum award available for the fall 2006 and spring 2007 semesters will be $2,432 for in-state students and $6,758 for out-of-state students (please note that these rates are for current academic year and will be subject to change or reaffirmation by the trustees).
1.11 **Combined Tuition Awards.** Where a graduate student is awarded a combination of assistantships, fellowships, and other tuition scholarships, he or she can never receive combined tuition awards that total more than the maximum tuition rate for 9 hours. However, other scholarships that are **NOT** directed to pay tuition can still be awarded even where the maximum tuition has already been paid.

1.12 **Out-of-state tuition support will only be awarded to students where the assistantship is for 0.25 FTE or greater.**

1.13 The budget officer in each college has the information concerning authorized permanently budgeted assistantships, the total number of 0.50 FTE appointments, and the maximum dollar value of the semester tuition grants. These are permanently budgeted funds allocated by Academic affairs and do not include any departmental-funded assistantships. The Graduate School will not approve any requests in excess of these limits unless separate authorization has been obtained from Academic Affairs.

1.14 **Sponsored Programs Assistantships.** Where an assistantship of 0.25 FTE or greater is supported from externally sponsored research funds, and the agency will pay the in-state tuition only, then the student will be entitled to an award from Graduate School funds for the out-of-state portion of the tuition. The amount of the award will be prorated in the same way as regular awards based upon the FTE of the appointment. The “Special Request for Out-of-State Tuition Award” form should be used to claim this award and should be forwarded to the Office of the Contract Accounting for certification.

1.15 **Auxiliary/Department Funded Assistantships.** No award is available under this program if the assistantship is connected with auxiliary or self-supporting activities or is paid from state line items or any other permanently budgeted funds that are **NOT** allocated by Academic Affairs.

1.16 Students paid on an **hourly basis** cannot be supported under these arrangements.

1.17 All **non-native speakers of English** must successfully complete the University’s International Teaching Assistant Program (ITAP) before they can hold any teaching assistantship (category 4005 and 4401 occupation codes). Please refer to the attached schedule that sets out permissible assistantship types for each level of ITAP pass. **Departments MUST verify that the minimum level of ITAP pass has been achieved for the assistantship awarded.**

2 **Key Dates**

2.1 For graduate assistants to have their **fall** tuition accounts cleared by the Office of Student Receivables before the initial bills are mailed, all tuition award forms must be forwarded to reach the Graduate School by **June 23, 2006.** All forms not requiring Graduate School approval must be forwarded to Student Receivables by **June 28, 2006.**

2.2 For spring semester 2007 the dates are provisionally set for **October 23, 2006** (Graduate School) and **October 27, 2006** (Student Receivables).

3 **Forms**
3.1 Please use the current forms to request tuition awards under these arrangements. Electronic versions of these forms can be copied from the Graduate School website at http://graduate.ua.edu/admin/forms/. The older forms will no longer be accepted.

3.2 The “Teaching Assistants” form is used for all assistants who will be teaching classes in any form or fashion during the fall semester. Please ensure that each student who is included on this form is entitled to teach according to the SACS’ requirements, in particular the academic qualifications. For each student, you must ensure that the SACS rules are satisfied. Please use the flow chart “Determination of Graduate Assistantship Type” to assist in determining which form to use.

3.3 When completing these forms, please ensure that you note whether or not the student satisfied the 18-hour rule by recording the fact in the last column. If the student does not satisfy the rule, then the student CANNOT have primary responsibility for teaching and may only assist an instructor of record.

3.4 Both the Dean and the Dept. Head or Program Director must sign the Teaching Assistants form.

3.5 The “Research, Administrative, & Other Assistants” form is used for all other assistants who are not teaching.

3.6 Either the Dean or the Department/Program Head may sign the Research, Administrative, & Other Assistantships form.

3.7 Where the student is approved under a permanently budgeted assistantship only these forms are required; you do not have to complete a separate out-of-state tuition form as the student receivable system will automatically calculate the appropriate tuition award based upon the student’s residency. You need only include the amount of the in-state tuition award on these forms.

3.8 The “Tuition and Fee Form for Charging Grants/Contracts” form is used for graduate assistants, both teaching and research, who are appointed under any funds paid from Sponsored Programs/Contract & Grant accounts. The same SACS rules apply for teaching assistants. These forms are prepared by departments and approved initially by OSPFS office. This authorizes payment of tuition awards from the relevant budget code. Please contact the OSPFS office for further information.

3.9 The “Special Request for Out-of-State Tuition Award” form. As indicated above, for students approved under a permanently budgeted assistantship, these forms are no longer required. They are however still required for the following:

- A student who is being supported by a department from a non-permanent budget line for in-state tuition.
- A student who qualifies for Academic Common Market support.
- Students sponsored under the Capstone International Program Center and whom the Office approves for Academic Affairs.
- Law School sponsored students.
- National Student Exchange Program students approved by the NSE Coordinator.

4 Special Situations
4.1 Departmental awards may be made where budget is available. The appropriate tuition awards forms must be completed and forwarded to the Graduate School including the account code for charging the in-state tuition award.

4.2 Graduate students paid from restricted funds, self-supporting budgets, or budgets of auxiliary activities are not eligible for out-of-state tuition awards under this program.

4.3 Graduate assistants whose appointments are terminated before the end of the academic semester are eligible for reduced tuition awards as shown in the attachment “Effect of Early Withdrawal/Resignation on Tuition Award”.

If you have any questions concerning tuition awards for the fall and spring semesters, please contact Mr. John Chambers at the Graduate School office on 8-8282. This memo and its contents are displayed on the Graduate School’s website Administrative Policies at: http://graduate.ua.edu/admin/policy/
